Fund Overview

This is an actively managed investment utilising a separately managed account structure, invested across a portfolio of Australian Equities. The DNR Capital Australian Equities Socially Responsible Investment Portfolio utilises the services of Bloomberg Terminal ESG Function to apply a limited number of negative screens.

Ethical Concerns

Investments

- ✘ Some investments in the Portfolio may be problematic for ethical investors, such as:
 - Fossil-fuel exposure: BHP & Woodside Petroleum
 - Uranium: Rio Tinto
 - Chemical production: Wesfarmers
 - Exposure to the big four banks plus Macquarie Bank

Other concerns

- ✘ Has voted against a number of ACCR & Market Forces resolutions
- ✘ Poor transparency of holdings, as the full holdings can only be accessed on the RIAA Responsible Returns [website](#) and not on DNR's website.
- ✘ DNR do not specialise in ethical investments.

Good Points

- ✓ Fund excludes tobacco, gaming, pornography and armaments.
- ✓ Separately managed account structure enables existing investors see through to underlying investments.
- ✓ Some Commitment to transparency by being UNPRI signatory and [RIAA](#) certified.

About the 'Ethical Survey'

About the Ethical Advisers Co-Op

The Ethical Advisers Co-op is a group of 35 financial advisers who are passionate about ethics and finance. The Co-op was established as a not-for-profit over 10 years ago to enable likeminded financial advisers to work together to represent the voice of the consumer. We work to shift the super and investment industry into being more ethically aligned with their clients' objectives. The Co-op's nationwide membership of ethical financial advisers help over 3,300 Australians make financial decisions and invest in line with their ethical values.

How the Leaf-System Works

The ethical rating is voted by Australian financial advisers who specialise in ethical investments (Co-op members). The advisers assess if fund ethics suit their average ethical client, and if it matches with the average client's expectations and objectives. The advisers consider how successful the fund is at; 1) removing industries and stocks harmful to the environment and society 2) including companies with environmental or social benefits, and 3) providing evidence of actions from the fund which benefit society and/or the environment. The quality of information the fund provides on its ethical policies, companies invested in, and proxy voting is important in assessing if a fund is as ethical as claimed. The final rating is an average of these votes.

Financial advisers are voluntarily participating to help ethical consumers gain a quick understanding of how the clients of a group of industry professionals view the ethics of each fund. The Co-op and the advisers do not receive any form of remuneration or reward for participating.
